RE: Memory and Estate of Irene D. Pfeiffer

Dear Rick,

Unfortunately this letter is necessary. Mother died almost a year ago. I looked it up on the web, I'm not certain of your address and I have not received anything, "official" and from you regarding her death or my money as reflected by the trust.

You have had ample opportunity to do this as my brother and as a fiduciary. I have asked repeatedly and through a probate action.

I am using this opportunity to ask you once again for all information since you became aware of the trust, since you assumed the role of trustee, and everything including annotations and descriptions of each transaction you have been involved-in.

Specifically, it appears you are now using trust funds to harass and intimidate me. Plus, you are denying me funds that belong to me.

Regarding what is above, I will submit an ethics complaint to the Florida Bar/Supreme Court RE Ms. Kerr. You had no right to provide her with my personal email—I never provided permission—and such harassment is illegal in Colorado. Put simply, she and her staff may not contact me. (One mailing from her was stuffed into a small envelope with a hole in it; I have not opened it.)

At first I trusted you with email but you did not reply. You have never written or called or emailed me; with one possible exception, I have never received a call, letter, card, or package from you in my life. You have cut me out of every possession, memento, piece of information, funeral, and now the trust. I ask once again to please provide essential family and trust documents and information to me via the U.S.P.S. immediately. I trust this information—including all transactions, annotated—will come from you with copies to all beneficiaries (i.e., including Susan). I hope you will include all emails you persist in asking Ms. Kerr and her staff to send me (I have stored them).

This letter is uploaded to my website in PDF form along with other relevant, threatening, abusive, and harassing information.

Sincerely,

Peter C. Pfeiffer
